

Color Display Assembly Upgrade

For Century Small and Medium Sterilizers

Preserve your uptime

Proactive replacement of obsolete monochrome displays will keep your unplanned downtime at bay. The components for the monochrome displays are no longer available¹. STERIS is offering promotional prices for contract² and non-contract Customers to upgrade their display. Receive the benefit of a brighter display with the look and feel you have grown to expect from current STERIS equipment.

Reasons for replacement:

- Faded or foggy displays
- Power consumption has affected printer and power supply life
- Reduction in operator errors due to faulty display
- Reduced Downtime
- Replacement parts no longer available
