HIGH-QUALITY CONTAMINATION CONTROL PRODUCTS AND SERVICES FROM THE INDUSTRY EXPERTS ON CONTROLLED ENVIRONMENTS

EQUIPMENT & CLEANROOM CERTIFICATION
Maintain a contamination-free environment & ensure compliance

- Inflow & Downflow Velocity Profiling
- ASHRAE 110 Testing
- HEPA Filter Integrity & Leak Testing
- Airflow Visualization Testing
- Installation Testing & Alarm Calibration
- Tracer Gas Testing
- Room Recovery Testing
- USP 797 & 800 Compliant

- Non-Viable Particle Counting
- Cabinet Integrity & Vibration Testing
- Smoke Visualization Testing
- Cross-Draft Testing
- VAV Testing (Variable Air-Volume Testing)
- Sound Testing & UV Light Intensity Testing
- Cleanroom Testing

DECONTAMINATION SERVICES
Reduce the risk of contamination & prevent costly downtime

- Room & Facility Biodecontamination
- Routine Bioburden Reduction
- Emergency Remediation

- HVAC, Biological Safety Cabinet & Equipment Biodecontamination

ENVIRONMENTAL MONITORING
Demonstrate control of your critical areas

- cGMP Compliance Services
- Viable Testing & Identification
- USP 797 & 800 Compliant

- Non-Viable Testing
- Gown Certification

MODULAR CLEANROOMS
Protect your critical assets & maintain your clean environments

- Hardwall & Softwall Enclosure Options
- Positive or Negative Pressure

- USP 797 & 800 Compliant
- ISO Class 3 Through ISO Class 8

ADDITIONAL TESTING & SERVICES

- HEPA Filter Replacement & Repairs
- Equipment Repairs
- Validation
    - IQ, OQ, PQ
    - Protocol Writing
    - Method Validation

- Calibration
    - Equipment
    - Temperature & Humidity
    - Light & Sound
- Compressed Air & Gas Testing
- Training & Consulting
