

Dear Valued Customer:

We communicated to you in June of 2015 our intention to acquire General Econopak, Inc. (GEPCO). At this time, we are pleased to announce that this acquisition closed on, July 31, 2015 and that we are moving ahead with several integration activities that will further enhance our ability to serve you. Our goal at all times is to ensure that our Customer's needs are met, first and foremost.

One such integration activity is rebranding. Over the next several months we will be rebranding the GEPCO products. We believe that a STERIS brand for these products will better reflect our broader product, service and solutions portfolio in the areas of sterility maintenance, barrier protection and sterile cleanroom products for the pharmaceutical, biotechnology and veterinary Customers that we serve.

Founded in 1987, STERIS is operationally headquartered in Mentor, Ohio and its mission is to help Customers create a healthier and safer world by providing innovative healthcare and life science product and service solutions around the globe. The Company has approximately 14,000 people working together to supply a broad array of solutions by offering a combination of equipment, consumables and services to healthcare, pharmaceutical, medical device and research Customers.

The GEPCO products that you have grown to depend upon will continue to be manufactured in the same facility, using the same materials and procedures, by the same highly experienced and committed GEPCO team. We are sensitive to your need to ensure that your lot receipt and release procedures for GEPCO products are not impacted during rebranding to the STERIS name. Therefore, our goal is to transition to STERIS name throughout 2016. The reorder number and product description with which you order your GEPCO products and the manner in which you place your order will not change.

If you have any questions, please refer to the FAQ also provided. For additional information, please contact your current GEPCO representative or send email inquiries to info@generaleconopak.com.

Sincerely,

John Sincavage
President and COO
General Econopak, Inc.
